

3 BACK TO SCHOOL KINDNESS TIPS FOR EDUCATORS

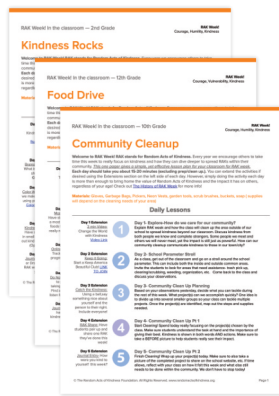

Going back to school can be both exciting and challenging for kids. Kindness and support from educators can help set the tone for a strong school year. In addition to our Kindness in the Classroom curriculum, here are 3 ways to start.

1. Show Kindness

As educators, you can make a significant impact by modeling kindness during this transition.

Access our 2023/2024 school calendar to find daily ideas for acts of kindness.

2. Listen with Empathy

Take the time to listen to your students' thoughts and feelings about going back to school.

Choose from our new kindness activities to foster a sense of community and connection within your classroom and across your school.

3. Create a Positive Classroom Environment

Foster a warm and welcome atmosphere in the classroom.

Select from our assortment of grab & go games & ice breakers for an engaging classroom experience.

Need help finding something?
